

Work hack lampu listrik supaya padam via termux

```
&pkg update
```

```
&pkg upgrade
```

```
&pkg install git
```

```
&pkg install python2
```

```
&pkg install nano
```

```
&pkg install gnupg
```

```
&git clone https://github.com/LionSec/
```

```
katoolin.git
```

```
&ls
```

```
&cd katoolin
```

```
&ls
```

```
&python2 katooli.py
```

```
&nano katoolin.py
```

lalu kalian cari nomer 7 terus masukan No listrik nya/

No PLN lalu enter habis itu tekan tanda perintah ini

```
"ls"
```
